

Intent for Whole Body Donation - Communication to Loved Ones

To my family, loved ones, and executor,

I, _____, wish to share with you an important personal decision.
It is my intention that, at the time of my passing, my body be donated to the Institute for Anatomical Research for the purpose of anatomical education.

This decision is meaningful to me. I believe this donation serves a valuable purpose by supporting the learning of students and professionals, and contributing to a deeper understanding of the human body.

I understand that this document is not a binding agreement with the Institute, and that final acceptance into the program is determined, based on their current capacity and criteria, at the time of my passing. For this reason, I kindly ask for your support in helping to carry out my wishes.

At such time as my passing is imminent, (or if needed, immediately after my passing), it will be necessary for my family or executor to contact the Institute directly. This will allow for coordination between family, funeral home and the Institute in making arrangements for the donation.

I ask that you please honor this request and assist with these steps. I also encourage open conversation about this decision, so that everyone feels informed and comfortable with my wishes.

Thank you for your understanding, care, and support.

With love,
